Standard Deviation (%)	4.0	11.3	7.5	11.0	12.8	11.1	6.7	11.0	6.4	10.9

^{+,=,-} The percentage of students meeting the standard is significantly above (+), not significantly different from (=), or significantly below (-) the previous three-year average. A difference is reported as significant when there is a 5% or smaller probability that a difference of that size could occur by chance. The fewer the number of students, the larger the difference must be from the expectation before it is considered significant. Significance is not calculated for fewer than 6 students.

For an explanation of how these statistics were calculated, see "Guidelines for Interpreting Diploma Examinations Multiyear Reports".

Provincial data in this report is for the entire school year.
